Qualitative comments

2.1 Here you can write constructive comments for the teaching assistant.

(You have the opportunity to comment on, e.g.,:

What went well? Why?

What changes would you suggest that might improve the course?)

- *I love that you made tutorial videos to follow, cause that also means you have the opportunity to watch it again if some things are hard.
The exercises were also really nice and very motivating too!*
- *Such a nice guy. Always there to help on Discord. An absolutely extra ordinary effort.*
- *This guy is amazing, he helped so much!*
- *Very good help during the project period.
Almost available every day, for most of the day.
Great tutorial videos on python and web services.

One of the best TA's that i have experienced.*
- *Eder has been most helpful!

He has been available almost every waking hour on Discord for the whole duration of the final project. He has helped my group with things he didn't even have to, but did anyways. I highly appreciate Eder as a lector and TA on this course. All the best to you and yours!*
